

## Applications for Sullins Test Sockets:

- Burn-in and Test Systems
- Electronic Component Testing
- Burn-in Boards
- High Power Device Testers
- Highly Accelerated Life Test
- Semiconductor Testing
- Communications Equipment
- Medical Equipment Instrumentation
- Power Converters and Power Supplies
- Aerospace
- Automotive
- And more...

## The Sullins Advantage

- Five-day Lead Time\*
- Free Samples – Fast!
- High Quality and Reliable Connectors
- Engineering Design and Technical Support
- Connector Experts at Your Service Assist with Specific Project Requirements
- Design and Build Custom Parts to Suit Your Needs
- RoHS Compliance
- Made in USA

## Sullins Custom Test Sockets

### Features and Benefits:

- High temperature, high current and reliability test socket solutions
- Open designs available to replace clamshell type sockets for maximum heat dissipation
- Custom designs for almost any diode/MOSFET/transistor
- Low minimum order quantities
- Fastest lead times in the industry on custom designs
- Kelvin design sockets available
- In-house design and custom molding capabilities
- Expert engineering assistance with your design to save you time and money
- Operating temperature ranges from -65°C to +250°C
- Modular tooling for cost-effective modifications to current parts
- Full gold, selective gold and full tin plating options available in various thicknesses
