

Applications for Sullins Connectors:

- Garage Door Controls
- HVAC Controls
- Power Supplies
- Process Controls
- Household Appliances
- Notebook and Desktop Computers
- Car Radios
- Cash Dispensers
- Patient Monitors
- Alarm Systems
- Set Top Boxes
- DVD Players
- Video Cameras
- PDAs
- Office Automation Equipment
- Mobile Terminals
- Speakers
- LED Lighting Strips
- Buzzers
- And more...

The Sullins Advantage

- Five-day Lead Time*
- Free Samples – Fast!
- High Quality and Reliable Connectors
- Engineering Design and Technical Support
- Connector Experts at Your Service Assist with Specific Project Requirements
- Design and Build Custom Parts to Suit Your Needs
- RoHS Compliance

Wire-to-Board Connectors **NEW!**

Features and Benefits:

- Designed for wire-to-board interconnection
- Consist of crimp terminal, housing, and wafer header in a complete system
- Available in contact centers ranging from 0.80mm to 7.92mm pitch
- Accept wires from AWG #16 to AWG #32, depending on contact centers
- Available in straight and right angle through-hole, as well as vertical and horizontal surface mount terminations
- RoHS-compliant and UL94V-0 rated
- Compact, high density, space-saving, low-cost
- The housing is polarized to prevent mismatching
- Locking ramps on housing helps securing it to the wafer header to minimize unmating resulting from vibration or mishandling
- The solder tabs on headers help improve retention onto PCB and minimize the possibility of cracking the solder joints caused by mishandling
- Large variety of contact centers and termination styles allow maximum design flexibility for various wire-to-board applications
